

# KempGouge ARC 800

HEAVY DUTY CARBON ARC GOUGING SPECIALIST

## KempGouge ARC 800

### HEAVY DUTY CARBON ARC GOUGING SPECIALIST

KempGouge offers 800 amps of gouging power with 50% duty cycle. The characteristics curve is specifically designed for carbon arc gouging, so gouging properties are optimised and noise levels kept very low.

KempGouge lets you open roots or faulty welds, prepare welding grooves, cut metals, pierce holes, clean casts and remove excess metal.

KempGouge ARC 800 gives productivity and convenience to gouging work. When equipped with the optional R10 remote control unit, gouging current adjustment can be made directly from the work site, removing the need to move between the work piece and the power source. The carbon arc gouging electrode holder GT4000 is designed for use with the KempGouge and suits either round or flat electrodes. The air pressure used for gouging can be adjusted via the control mounted on the holder itself.

Package includes power source, control panel, and transport unit for easy mobility.

## KEY BENEFITS

### FAST AND EFFECTIVE

Way to remove defects, back gouge the root, cut metal and pierce holes

### EASY WAY

To move the equipment and adjust the gouging current

---

## BENEFITS

- Designed specifically for carbon arc gouging
- Extremely power efficient
- Compact and easy to move
- Panel or remote current adjustment

## ACCESSORIES

Connection cable 5 m 4x16mm<sup>2</sup>

Connection cable 10 m 4x16mm<sup>2</sup>

Earth return cable 5 m, 120 mm<sup>2</sup>

Earth return cable 10 m, 120 mm<sup>2</sup>

GT 4000 Electrode holder

Product is intended to be used in carbon-arc gouging. It is suitable for use with the KempGouge™ ARC 800 arc gouging machine. The gouging carbon used in the electrode holder can be round or flat. The air pressure used for gouging can be adjusted by the control knob on the electrode holder.

Remote control R10

Suitable for use with Kemppi MIG, TIG, and stick (MMA) welding equipment. Available in 5 m and 10 m.

Increase welding quality, work efficiency, comfort, and safety with appropriate, easy-to-use Kemppi remote controls.

Remote control extension cable 10 m

**Kemppi** is the pioneering company within the welding industry. It is our role to develop solutions that make you win business. Headquartered in Lahti, Finland, Kemppi employs over 800 welding experts in 17 countries and has a revenue of more than 150 MEUR. Our offering includes welding solutions - intelligent equipment, welding management software and expert services - for both demanding industrial applications and ready-to-weld needs. Local expertise is available via our global partner network covering over 60 countries.
